

## EDUCATION REIMAGINED

Founded in 2018, Mid-South Gifted Academy is an independent school designed specifically to meet the academic, social, and creative needs of intellectually gifted learners in grades PreK-12. The mission of MSGA is to develop innovators and world-changers. Our high school program offers a personalized, relationship-centered environment where students customize their four-year plan to align with their strengths, goals, and interests. In addition to basic core requirements, MSGA students cultivate their curiosity through numerous electives, independent studies, service learning projects, and travel opportunities.

**First Graduating Class: 2025**

Our curriculum and instruction are designed to allow for acceleration, intellectual challenge, and leadership development. In our small school environment, teachers work in advisory roles, guiding students to follow their interests and develop their unique talents and abilities.

MSGA students are innovators and world-changers inspired by a challenging curriculum and the idea of changing the status quo. They are passionate, inquisitive, perceptive, independent, and motivated. Our learners are young entrepreneurs, inventors, authors, and mathematicians.

In addition to traditional grading practices, our holistic approach to education provides students with a comprehensive digital framework called a Personalized Learning Plan (PLP). The plan allows students to take ownership of their learning by working cooperatively to create, track, and achieve academic and personal goals.

## COURSE OFFERINGS
